PROFESSIONAL EXPERIENCE

Portfolio : https://sureshsuthar14798.github.io/myportfolio

Invints Infotech LLP (Role :- Front-end Developer)   Surat, India (Feb 2021 - Feb 2022)

Key Responsibilities :

- Developed responsive, user-friendly web interfaces using HTML5, CSS3, Bootstrap, and JavaScript.
- Collaborated closely with UI/UX designers to implement pixel-perfect designs and ensure seamless user experiences across desktop and mobile.
- Maintained and optimized front-end performance to ensure high-speed loading, responsiveness, and cross-browser compatibility.

Codewexy Digital LLP (Role :- Front-end Developer)   Surat, India (March 2022 - Nov 2022)

Key Responsibilities :

- Built and maintained multiple client websites and dashboards using React JS, HTML5, and CSS3.
- Converted Figma/PSD designs to fully responsive web pages with pixel-perfect precision.
- Collaborated with QA teams to ensure bug-free deployments.
- Implemented reusable components and custom hooks to increase scalability and maintainability.

Pixel Software Infotech (Role :- Front-end Developer)   Remote - India (Nov 2022 - Jan 2023)

Key Responsibilities :

- Developed a component library used across all internal projects, improving design consistency and developer productivity.
- Worked closely with DevOps for CI/CD integration and deployment of frontend builds using GitHub Actions and Netlify.
- Collaborated with QA teams to ensure bug-free deployments.
- Implemented reusable components and custom hooks to increase scalability and maintainability.

BlockStars Infotech   (Role :- Front-end Developer   Remote - South Korea (Jan 2023 - Feb 2025)

Key Responsibilities :

- Designed and implemented component-based architecture with reusable UI elements.
- Built more than 30 marketing landing pages using React + Next.js with responsive and SEO-friendly structure.
- Assisted in developing websites using HTML, CSS, and Javascript for local clients.
- Created dynamic UI components and improved user experience across multiple devices.
- Maintained existing websites, fixed bugs, and made layout changes as per client feedback.
- Increased frontend performance score from 68 to 93 on Lighthouse.
